

PLANNING AND INVESTMENT

Planning and Investment | SEPTEMBER 14, 2017

MEETING AGENDA

3:00 – 4:30 P.M.

CHIP, 1100 W. 42nd Street, Indianapolis, IN 46208

I. WELCOME AND INTRODUCTIONS – Mary Jones

II. Youth Point in Time Count – Caleb Sutton

III. Updates

A. Veteran Programs

B. Blueprint 3.0 – Zach Gross

C. CoC NOFA – Zach Gross and Kirk Taylor

IV. MEETING ADJOURNMENT – Mary Jones

PLANNING AND INVESTMENT

I. WELCOME AND INTRODUCTIONS – Mary Jones

II. Youth Point in Time Count – Caleb Sutton

In July 2017, in cooperation with the Indiana University Public Policy Institute (PPI), the Coalition for Homelessness Intervention and Prevention (CHIP) conducted a Marion County Point-in-Time Count for Youth experiencing homelessness (Youth Count). The goal of Youth Count was to determine the number of sheltered and unsheltered homeless youth on a single day, July 10, 2017, and to shed light on the homeless youth population in Indianapolis for policy makers and service providers. The Youth Count does not capture an annual number of youth experiencing homelessness in Indianapolis, but only on one day. For the purposes of Youth Count, youth had to be literally homeless (not doubled-up) and ages 18 to 24 or under 18 without a parent or guardian.

A total of 78 youth were counted in the January 2017 PIT Count. In comparison, Youth Count found 87 youth experiencing homelessness, an increase of 12 percent or 9 youth. During Youth Count, almost all of the youth were ages 18 to 24 and most were sheltered (Tables 1 and 2). This is similar to the youth identified in the January PIT Count.

The full report was emailed to the Planning and Investment Committee and is available at chipindy.org.

III. Updates

a. Veteran Programs

The Veteran provider community lost a large portion of funding through Priority One SSVF grant. Although it was clear that the Priority One grant was in danger of not being renewed, there is still a large financial impact on Veteran community.

b. Blueprint 3.0

Blueprint 3.0 has completed all stakeholder interviews and focus groups and has compiled the information into the Blueprint 3.0 Survey Findings report. This report details the information collected from stakeholders and is organized around the collective impact model. The consultant has completed phase one of the planning process and is entering phase two of the planning process. A major focus of the second phase will be coalescing the information from phase one through community planning retreats.

Both the Blueprint 3.0 Survey Findings Report and Timeline for phase two have been emailed to the Planning and Investment Committee.

c. CoC NOFA

The NOFA was completed and pre-scored by the PATA team. Kirk Taylor provided detailed information about the project ranking.
