III. REVIEW WORK GROUP STRATEGY GRID AND DISCUSS FUTURE WORK OF THE TASK FORCE

The committee discussed the current work plan and strategies related to Supportive Services. Some key decisions were:

- 1) Changing the supportive services survey process as the primary means of information sharing/gathering, and to move toward community input days for the remaining townships.
- 2) There was an assigned effort for outreach to employment organizations, and Kevin Hillman is going to reach out and identify organizations to invite to the table. IndyGo is another partnership that needs to be strengthened.
- 3) Deeper connections between Supportive Services and Housing Committee need to be developed. A twice a year large-group meeting should be hosted, and it was suggested that the first be in August 2017.
