Discussion Questions

I. Based on the survey, what were the key services people are accessing?

II. If we look at the write-in organizations listed for services, what organizations are not represented on that list? Why?

III. What gaps do you see here based on what our homeless neighbors have stated? What about our partner organizations? How do these compare/differ? See partner gaps list

IV. Based on the gaps, which services seem to be the most difficult to access? Why do we think that is?

V. What are some important issues or connections that haven't come up in discussion yet? Anything? Please review any additional comments made by partners on how to decrease barriers in their area.

VI. What are 1-3 action steps that we can put together to make an improvement or strengthen the services for those experiencing homelessness?

Action Steps

Who is going to follow through on these steps?
